passionate about changing lives

passionate about
changing lives

Here at Independence Mobility, our number one mission is to help improve lives for the better! We've been supplying specialist healthcare equipment since 2004 and are proud to have helped improve the lives of thousands of customers, and we are committed to helping thousands more.

We work closely with the leading UK manufacturers to ensure we offer the latest innovative mobility solutions for end-customers. We supply a wide range of specialist seating, wheelchairs, beds, children's cycles, pressure care products, moving and handling equipment, and more, for both adults and children.

As well as our commitment to end-customers, we're also committed to supporting and working closely with physiotherapists, occupational therapists and other clinical professionals. Our vast experience in the healthcare industry means we are well-placed to provide advice and support to ensure clients receive the very best equipment for their unique and individual needs.

Our team of knowledgeable and caring consultants provide impartial product advice and offer client assessments across our complete product range. We're proud to be respected for our professional yet personal approach and we absolutely love what we do – helping to change a child's or adult's life for the better!

Anthony Mitchell

Anthony Mitchell - Company Director

experienced in supporting
case management companies

For anyone who's been involved in a serious accident and suffered life-changing injuries, we understand how vitally important it is to get the best possible medical support to continue to lead life to the full.

Not only is medical support needed during the recovery and rehabilitation periods, but it's very often required on a permanent, ongoing basis, particularly for those who have sustained irreparable injuries.

Where specialist medical and mobility equipment is needed to form part of that medical support, Independence Mobility is here to help. We've been working with case managers and case management companies for many years and have vast experience in creating solutions to support an individual clients' needs.

PREMIUM QUALITY MOBILITY EQUIPMENT AND IMPARTIAL ADVICE

We work with a wide range of UK manufacturers to offer clients a complete range of premium quality mobility equipment including...

- Specialist Seating
- Manual & Powered Wheelchairs
- Adjustable Beds
- Mattresses
- Hoists & Slings

...and much more.

Working with a wide variety of suppliers means that we're 100% independent, which means we're able to provide completely impartial advice to ensure your clients' needs are fulfilled to the highest possible standards.

EXPERIENCED AND KNOWLEDGEABLE TEAM

All our team have significant knowledge in all areas of mobility and are experienced at carrying out client assessments to assess which equipment is best suited to a client's specific needs.

We are happy support case managers in whatever way is needed – whether it's advice over the phone or joining you on client visits.

SPECIALIST SEATING

The range of specialist chairs from **Seating Matters** are changing the world of healthcare seating. Extensively researched and designed by clinicians, these revolutionary chairs meet pressure, posture, comfort, mobility and functional requirements together in one device.

PHOENIX™

The Phoenix™ is designed to give maximum support to the upper body through lateral and head supports. It will also adapt to the changing needs of a person being rehabilitated or meet the long-term needs of a progressive condition.

The unique adjustability allows the Phoenix™ to be used with individuals of different dimensions and with varying needs which is ideal for use in acute wards or changing environments.

SORRENTO™

The Sorrento™ is a simple to operate and stylish tilt in space chair which is designed to improve and maximize comfort as well as postural support and pressure management.

With its adaptability and effortless adjustability, the Sorrento™ lends itself easily to multi-user environments where the seating needs differ between users.

MILANO™

The Milano™ is an accessible, universal chair that incorporates the clinical features, quality and durability expected of a Seating Matters chair. Perfect for multiple users, the Milano™ can be adjusted in seat width, seat depth and footplate height to fit a different patient. It also passes stringent infection control standards and makes re-issue of the chair very simple.

BARIATRIC SORRENTO™

The Bariatric Sorrento™ was designed to help seat bariatric patients by using improved postural support and repositioning, while reducing the risk of injury to the patient and staff alike. It accommodates those with increased body weight and physical size and is the world's only tilt in space bariatric chair.

KIDZ PHOENIX™

The Kidz Phoenix™ is the most supportive and functional chair of the Seating Matters chairs. It provides pressure distribution due to the multi-stretch material and reflex foam in the seat cushion and offers a great deal of support with the tilt in space mechanism and adjustable supports. The head support accommodates those with kyphotic postures, hyperextension, or those who require upper body and head support.

MONACO™

Known for its effortless use and enabling qualities, the Monaco™ has been designed for comfort and mobility with independence at the forefront of its design.

The Monaco™ is ideal for users with reduced mobility or sitting balance who require comfort and support without compromising independence in transfers and function. Its unique angle adjustable seat creates an optimum and safe sitting position when adjusted posteriorly.

MONACO ASSIST™

Built on the foundations of the Monaco™, the Monaco Assist™ has been designed to support those requiring assistance to transfer from the chair.

The Monaco Assist™ is ideal for users with reduced mobility or sitting balance who require comfort and support without compromising independence in transfers and function.

ATLANTA™

The Atlanta™ has been carefully designed for those who require the comfort, safety and security that only a Seating Matters chair can provide.

The Atlanta™ is a robust and durable chair which provides a safe and comfortable seat for those with vigorous involuntary movements, while reducing the risk of falling from the chair.

KIDZ SORRENTO™

The Kidz Sorrento™ is a simple to operate and functional chair which is designed to improve and maximise comfort as well as provide postural support and pressure management. With its adaptability and effortless adjustability, this paediatric specialist chair lends itself easily to the needs of growing kids or those with changing needs, meaning their comfort, posture and pressure management remain uncompromised.

RISER RECLINER CHAIRS

Riser recliner chairs are the perfect solution for the elderly and for people with medium levels of mobility but who struggle to stand up and sit down. The riser function helps a person sit down and stand up from their chair. The recline action makes the individual more comfortable.

Here at Independence Mobility, we offer riser recliner chairs that are tailored to the user’s unique and specific needs. Each element of a chair can be made-to-measure, to create a completely bespoke product that provides the correct levels of support.

ARM HEIGHT
Arms should be able to rest comfortably on the armrests.

SEAT HEIGHT
The correct seat height is important to ensure comfort and support for the legs and back.

SEAT WIDTH
If the seat is too wide, the user may lean to the side. If it's too narrow, it can put pressure on the hips.

SEAT DEPTH
The user should be able to sit right back in the chair to ensure they are fully supported.

SEAT CUSHIONS
Different cushion types are available to accommodate specific needs.

RISE & RECLINE ACTION
A choice of single or dual-motor recliner action ensures the chair is easy to get in and out of.

BACK HEIGHT
The back height is important to ensure that the neck is fully supported.

MODULO

The Modulo is a fully adjustable and flexible riser recliner chair. With adjustable seat width, height and depth, it can be easily reconfigured for different users making it the perfect solution for equipment loan stores and care homes.

ABERDARE

The Aberdare riser recliner chair has classic scroll arms and full chaise footrest, which combined with a deep buttoned back, gives excellent lumbar and head support.

BRECON

The Brecon rise and recline chair features scroll arms, a full chaise footrest and a three-pillow waterfall back. Each cushion can be adjusted vertically to give added comfort.

CONWAY

A neatly designed rise and recline chair, the Conway has solid wood arm knuckles and a deep buttoned back giving excellent lumbar and head support. A full chaise footrest and padded wings complete this design.

DENBIGH

The Denbigh riser recliner chair has a 3-tier waterfall back, full chaise footrest, padded wings and solid wood arm knuckles.

NOTE
The chairs shown above are just a few examples of the styles available from Independence Mobility. Visit our website to see more.

DIMENSIONS

All chairs are available in a choice of petite, compact and standard sizes.

COLOURS & FABRICS

A wide range of colours, patterns and fabric types are available to select from.

RISE & RECLINE ACTION

Chairs are available with a choice of action types including single or dual motor.

MANUAL WHEELCHAIRS

Independence Mobility supply a wide range of manual wheelchairs from leading brands including Permobil, Sunrise Medical, Invacare and Ottobock. Our range includes rigid, folding, passive and sport wheelchairs with a variety of features to suit all requirements.

TYPE
RIGID

PERMOBIL TILITE TR

The sweeping curves of the titanium dual-tube frame are the perfect fusion of striking design and driven performance. Lighter, more efficient, and more elegant than any chair anywhere.

INVACARE KUSCHALL K SERIES

With its iconic minimalist open frame and lightweight design, the K-Series allows you the ability to enjoy everyday activities; whether it's getting to and from work or pursuing your exciting hobbies, the K-Series gives you the freedom to be you.

KI MOBILITY ETHOS

The Ki Mobility Ethos has scientifically proven vibration damping technology which diminishes vibrations received by the body. This is combined with an exceptionally rigid lower frame design that results in the ultimate high-performance ride.

BREEZY IBIS

The Breezy Ibis is a tilt-in-space wheelchair that's robust, highly versatile and offers ultimate seating comfort. Combined with the Sedeo Pro seating system, it offers excellent adaptability and allows for easy customisation to suit individual requirements.

INVACARE REA CLEMATIS

The popular Rea Clematis is a robust and reliable manual wheelchair which can be effectively adapted to each individual's specific needs. The angle-adjustable seat and backrest helps to stabilise posture and allow for other movements.

QUICKIE IRIS

The Quickie IRIS is the ultimate tilt-in-space wheelchair. It has 55° of Intelligent Rotation in Space Technology, a broad range of positioning and caregiver options, numerous adjustments, and is the lightest tilt in space wheelchair available today.

TYPE
PASSIVE

TYPE
FOLDING

INVACARE KUSCHALL CHAMPION

The Kuschall Champion is the rigid chair - that folds! This new generation product sets the standard at the highest possible level. Experience the driving performance, stability and style of a fixed frame chair with all the benefits of one that folds.

QUICKIE XENON² FF

The Xenon² is an ultra-lightweight wheelchair that's easy to fold, lift and transport. With a fixed front frame for a clean, streamlined design, and innovative technology, the Xenon² FF is the ideal match for those with a very active lifestyle.

QUICKIE KRYPTON

The Quickie Krypton is the ultimate lightweight energy efficient wheelchair. Unique manufacturing allows the creation of a lightweight carbon wheelchair using X BRAID technology which has been previously unseen in wheelchairs.

QUICKIE ALL COURT

Designed with the help of elite basketball wheelchair athletes, the Quickie All Court sports wheelchair features a lightweight, adjustable, high-performance frame built for manoeuvrability and power.

QUICKIE SHARK RT HAND BIKE

Designed for leisure and semi-professional athletes, the Shark RT hand bike's innovative frame is designed to allow you to perform at your best. Delivering the same outstanding performance as the Shark RS, the Shark RT offers more adjustability and flexibility.

QUICKIE SHARK RS HAND BIKE

The award-winning Quickie Shark RS hand bike is the choice of champions. The Shark RS's new innovative frame is designed to allow for the best individual positioning and performance.

TYPE
SPORT

POWERED WHEELCHAIRS

Our range of wheelchairs also includes powered wheelchairs with models that are lightweight and compact, ideal for manoeuvring around narrow spaces.

TYPE
OUTDOOR/INDOOR

INVACARE STORM4 X-PLORE

With the Invacare Storm4 X-plore power chair, clients can experience the benefits of four-wheeled suspension for confident driving outdoors whatever the terrain. The increased shock absorption and improved traction give the ultimate driving performance.

OTTOBOCK JUVO B5/B6

The Juvo B5 & B6 power wheelchairs have a modular design that enables the assembly of custom-made devices for complex requirements. They are available in a choice of three drive types and two frame widths.

PERMOBIL F5 CORPUS

The F5 Corpus, with agile suspension, is the ideal chair for users who need mobility for a more active outdoor life, driving on varying surfaces and over longer distances. It has a tight turning circle, making it a great hybrid for indoor or outdoor use.

OTTOBOCK C2000

The C2000 is an outdoor power deluxe wheelchair offering safety and comfort, even over longer distances. The C2000 is compatible with the full line of OttoBock special and custom controls which means the power wheelchair can be tailored to precise requirements.

PERMOBIL X850 CORPUS 3G

With rear-wheel drive, powerful motors and robust suspension, the Permobil X850 Corpus 3G is a wheelchair which can be safely driven at 15 km/h. The seat of the X850 Corpus 3G can be rotated 180°, making transfer easier.

TYPE
OUTDOOR

TYPE
INDOOR/OUTDOOR

QUICKIE Q200 R

Smartly designed to challenge indoor/outdoor powerchair standards, the Quickie Q200 R is ultracompact for indoor agility, with stability and performance that's just as at home on the city streets.

OTTOBOCK B4 NEURO

The B4 Neuro Power Wheelchair was developed as part of an MND Association initiative to develop wheelchairs suited to people living with MND and other neurological conditions. It is compact enough to fit in the home and sturdy enough for outdoor use.

QUICKIE Q700 F SEDEO ERGO

The striking Q700 F is a high-performance front-wheel drive power wheelchair with superior style and manoeuvrability. You can enjoy great outdoor performance and excellent indoor manoeuvrability with the latest technology to keep you safely on-track.

PERMOBIL F5 VS

The F5 Corpus VS includes all the power seat functions of the F5 Corpus in addition to standing and drivability while standing. It should be prescribed for users who want to benefit from standing but cannot stand independently.

QUICKIE Q700-UP F SEDEO ERGO

The Quickie Q700-UP F Sedeo Ergo allows you to stand whenever you want and offers many health and lifestyle benefits. It improves pressure relief for those who may have limited ability to independently weight shift or have to sit for long periods.

OTTOBOCK C1000 SF

The new C1000 SF makes it easier to stand than ever before. Movements from almost any sitting or semi-recumbent position into the important extension of the entire body are enabled comfortably.

STANDING

ADJUSTABLE BEDS

Getting a good night's sleep is one of the most important factors to our well-being. Independence Mobility supply a range of adjustable beds and specialist mattresses that provide comfort and support to aid sleep.

TYPE
BEDS FOR THE HOME

AMBASSADOR

The Ambassador has been designed to encompass the Flex Fit 8000 base. A deluxe base, it is beautifully soft to touch, with no hard edges to bump in to. This fully adjustable base works in harmony with your mattress to provide continuous support.

ELECTRO MEMORY

Experience the ultimate in comfort and quality with Bodyease motion technology adjustable bed. The space age technology Visco Elastic Memory Foam mattress blends technology with today's modern lifestyle.

MAYFAIR

The Mayfair ottoman is sure to create a dramatic focal point in your bedroom. The electrically operated end opening bed frame with easy push button, to effortlessly open base to reveal ample storage area.

IMATIK

An elegant bed that combines modern and classic style, with a beautifully upholstered head end and elegant wooden feet. The design works as a smart sleep system meaning the position of the mattress can be tweaked for optimum comfort.

ITEK

This fully adjustable bed offers complete support for your posture and is designed to act as the perfect platform for your mattress. It features integrated Bluetooth technology and USB charge points on the base, as well as under-bed lighting.

RIO

With clean lines and a simple but eye-catching design, the Rio is the perfect bed for those who prefer a traditionally-shaped style, but fancy something with a modern twist. It is available with a choice of bases to suit your style and budget.

TYPE
CARE BEDS

BODYSLEEP 4000

The Bodysleep 4000 not only moves patients into a sitting position but also into a standing position. This allows them to stand up, improve their recovery and increase their confidence and well-being.

INVACARE MEDLEY ERGO COMMUNITY BED

The Medley Ergo range of community beds offers the perfect balance of budget, functionality and quality. The bed features a four-sectioned profiling mattress support which enables a range of height combinations to be achieved.

INVACARE SB755 COMMUNITY BED

An ideal adjustable bed for all homecare and institutional environments, the SB755 community bed effectively combines comfort, ease of handling and safety.

INVACARE ETUDE PLUS COMMUNITY BED

The Etude Plus adjustable bed from Invacare is the ideal choice for community care. This sturdy and durable bed features attractive aesthetics, flexible design and easy handling.

TYPE
HOSPITAL BEDS

**The products shown above are just a selection of the models available from Independence Mobility. Visit our website to see more.*

PRESSURE CARE PRODUCTS

People with limited mobility who spend most of the time in a sitting position are at a much higher risk of developing pressure sores. Specialist pressure care cushions actively help to reduce the risk of pressure related injuries and provide additional comfort and support.

TYPE

CHAIR CUSHIONS

MATRIX FLO-TECH CONTOUR CUSHION

The surface of the Invacare Matrix Flotech Contour cushion is contoured into sections. This unique design improves posture and increases the support surface area, effectively dissipating weight away from specific pressure points.

MATRIX FLO-TECH IMAGE CUSHION

The Invacare Matrix Flo-tech Image cushion uses a combination of a slim, shaped foam cushion base and a large gel sac covering the sacral area, increasing even weight distribution and immersion of the ischial tuberosities.

TRANSAIR ALTERNATING CUSHION

A dynamic cushion operating with an independent pump using a combination of high-density foam and alternating air cells across the whole support surface which significantly reduces interface pressures whilst providing patient stability and comfort.

JAY J3 WHEELCHAIR BACK

A series of new improvements to the Jay J3 backrest range makes this the most versatile Jay backrest to suit all shapes, sizes and lifestyles.

JAY J3 CARBON WHEELCHAIR BACK

Designed to provide an ultra-lightweight and stylish backrest for active users, the J3 Carbon backrest provides firm stabilisation of the pelvis and lower spine to encourage an optimal spinal curve.

JAY J3 TC WHEELCHAIR BACK

By seamlessly combining the proven comfort and reliability of the Jay J3 back with heat and ventilation technology (TC), the J3 TC back ensures you are comfortable whatever the weather and helps reduce fatigue.

TYPE

WHEELCHAIR BACKS

TYPE

WHEELCHAIR CUSHIONS

JAY BALANCE WHEELCHAIR CUSHION

Combining the high skin protection qualities of the Jay J2 wheelchair cushion with the stability and positioning capability of the J3, the new Jay Balance wheelchair cushion adds exceptional comfort to ensure that there are no compromises.

JAY UNION WHEELCHAIR CUSHION

The Jay Union is a medium to high risk skin protection cushion offering enhanced stability and comfort based on fundamental seating principles and advanced design technology from the Jay Balance.

VICAIR VECTOR O2 WHEELCHAIR CUSHION

The Vector O2 is the first air displacement wheelchair cushion that is entirely machine washable without the use of a laundry bag. The Vector O2's open cushion structure ensures 100% breathability and ventilation.

INVACARE ESSENTIAL CARE MATTRESS

The Essential Care mattress is a pressure redistributing support surface, developed for home care and residential care environments. A castellated foam surface provides a cost-effective solution for comfort and pressure redistribution.

INVACARE SOFTFORM PREMIER ORIGINAL

A high specification replacement mattress designed to meet the demands of the Community and Acute healthcare environment. Practical and durable, this mattress delivers exceptional levels of comfort and pressure redistribution at a cost-effective price.

INVACARE SOFTFORM PREMIER MAXIGLIDE MATTRESS

A high specification foam mattress that offers an innovative glide mechanism that significantly reduces shear and friction forces when used with an electric profiling bed.

TYPE

MATTRESSES

HOISTS & TRANSFER AIDS

Using the correct type of equipment for client transfers is not only important for the safety of the patient, but also for the caregiver to prevent injury. Our range of moving and handling equipment includes slings and hoists tailored for a wide variety of needs.

INVACARE BIRDIE
MOBILE HOIST

With maximum space for the user, the Invacare Birdie offers a truly comfortable lift and transfer to or from beds, chairs or even the floor. The lifters are designed to ensure that folding and unfolding can be carried out easily. The Birdie Evo mobile hoist is also available.

MOLIFT QUICK
RAISER 205

Molift QuickRaiser 205 is a state of the art sit-to-stand hoist, with an electrically adjustable leg base and an outstanding lifting capacity. The standing hoist is comfortable, stable and safe with exceptional manoeuvrability.

HERMES 250 MOBILE
HOIST

The Hermes 250 Hoist is a folding hoist that can be vertically stored away when not in use. This electrically operated hoist has a greater weight capacity of 250 Kg (39st).

SYSTEMROMEDIC
MINILIFT 160

A mobile sit-to-stand lift which has been developed to, as gently as possible, assist the user when rising from a sitting to a standing position.

ROTA STAND

The Rota Stand has been developed to allow an assisted transfer from one seated position to another. The frame, shin pad and turn table combine to give optimum safety to both carer and patient during the transfer.

MOLIFT RAISER

The Molift Raiser platform is designed to safely move the user from a sitting to standing position while maintaining the best possible ergonomic moving and handling conditions for the caregiver.

BATHING & TOILETING

Safety is paramount when it comes to bathing and toileting to help prevent slips and falls. Independence Mobility offer a wide range of products that are ideal for use in bathroom areas.

FIXED HEIGHT
COMMODE

The fixed height bariatric commode is a simple solution to many size predicaments. It is available in a range of options, with a fixed or detachable back and in deeply padded vinyl upholstery or with comfort polyurethane.

ADJUSTABLE HEIGHT
& DETACHABLE ARMS
COMMODE

This bariatric commode has an adjustable height and detachable arms, and is available in a range of options, with a fixed or detachable back and in deeply padded vinyl upholstery or with comfort polyurethane.

PERCHING STOOL
WITH ARMS & PADDED
BACK

This perching stool has a reinforced framework in heavier gauge steel to cater for users of up to 318kg / 50st. It comes with fixed back and vinyl upholstery as standard.

SHOWER COMMODE
CHAIR

This wheeled chair offers dual functionality as both showering and commode chair. It has a soft-feel polyurethane moulded seat and back for comfort and durability.

SHOWER STOOL

This shower stool has a clip-on/clip-off perforated seat, is height adjustable, and can be stacked. It is available in mediatic, bariatric and super-bariatric sizes.

SHOWER CHAIR

This shower chair has a reinforced framework in heavier gauge steel to cater for users of up to 318kg / 50st. It comes with fixed back and vinyl upholstery as standard and can be easily converted from shower chair to shower stool.

**The products shown above are just a selection of the models available from Independence Mobility. Visit our website to see more.*

PAEDIATRIC PRODUCTS

When choosing mobility products for children, it's crucial to ensure that the equipment can cater for their needs as they continue to grow. Independence Mobility offer a wide range of mobility equipment that has been specifically designed for children. Our range includes specialist seating (as seen at the front of this brochure), wheelchairs, trikes and much more.

PERMOBIL TILITE TWIST MANUAL WHEELCHAIR

Designed from the ground up for kids, the Twist encourages exploration, independence, and playfulness. There are no parts or growth kits to buy. Instead, the Twist grows with you.

KI MOBILITY LITTLE WAVE MANUAL WHEELCHAIR

Little Wave by Ki Mobility is a light, simple to use, easy to transport paediatric wheelchair that has the ability to change and grow along with the user.

ESPRIT ACTION 4NG JUNIOR POWERED WHEELCHAIR

A compact and lightweight power wheelchair for those that like to get about quickly and easily. It has lightweight wheels and a narrow overall width - narrow enough to manoeuvre around the tightest of spaces.

PERMOBIL K300 PS JUNIOR POWERED WHEELCHAIR

With Permobil's K300 PS Junior children can join in with every activity. The K300 is supplied with a standard seat that grows with your child, ensuring a perfect fit at all times, regardless how fast they grow.

THERAPLAY IMP TRICYCLE

The IMP is small but perfectly formed with a low gear ratio for easier pedalling. It is fitted with 12½" wheels and small diameter handlebars for smaller fingers and hands. It is suitable for children from 2½ years old.

INVACARE SCANBETANG PAEDIATRIC BED

A safe and configurable bed that changes with your child. It is available in 2 sizes and is perfect for children aged from 3 to 12 years old.
